Hello Prescott Public Library Patrons,

We know we live in the high desert when July comes and people start scanning the sky for rain clouds. It's always a relief when the first monsoon rains come. Seeing people rush outside and stare into the sky during that first rain makes us realize how precious water is in our area.

It's been a busy summer here at the library with kids and adults participating in our summer reading program, attending weekly programs and using library computers. We've enjoyed seeing all of the familiar - and the new - faces checking out stacks of books, audiobooks and DVDs.

A frequent question we have received at the library desks this summer is about the upcoming August election and ballot measure 443. Patrons want to know how the outcome will affect the library. The answer isn't a simple one. The fact that City Council decided to place a sales tax initiative on the ballot is testimony to how carefully they are listening to residents about the services Prescottians value, like the library. I encourage you to read the official ballot For and Against arguments in the informational mailing you will receive soon as well as election information on the City of Prescott [website](#). Passage or non-passage of Proposition 443 will have lasting effects on the future of our city.

Enjoy your summer. I'll see you at the library.
