

GUIDELINES FOR 5SENSES ARTICLES

GOALS FOR THE PAS/5SENSES BIRD OF THE MONTH PROGRAM

1. Present the PAS Chapter's name and logo before the public, and promote our "*Window on Nature*" program, which is advertised in the "monthly event" section of each 5senses issue.
2. Highlight the extreme diversity of bird species that frequent our region.
3. Spotlight the wide variety of individuals who involved in birding and nature in our area, and recognition for their dedication effort in submitting articles and supporting PAS.
4. Multiple articles are accepted, but we try to spread them out over the year, again to display a variety of authors.

SELECTION OF SPECIES AND MONTH OF PUBLICATION

Selection of bird species and month of publication is the writer's choice, and submissions and reservations are first come... first reserved.

Once the decision to write an article is determined, I request individuals give me a call at **778-6502** or **848-1513**, or email me at bom@prescottaudubon.org to **reserve their species and publication date.**

ARTICLE CRITERIA

1. **Article length (minus biography):** 300 -350 words
2. **Bird species:** Author's choice, preferably one that will be in the area during the month of publication.
3. **Format:** Similar to a field guide, but with feeling (this is a guideline, the goal is to limit personal stories and focus on the species)
4. **Biography:** A few words you feel comfortable sharing folks about yourself, your background, passions, etc.
5. **Photo:** If you have a photo you wish printed with your article submit it along with the article and permission to publish. If you DO NOT have a photo an appropriate photo will be provided by PAS.
6. **Submission deadline:** The 10th of the month, prior to publication (i.e. Jan 10th for publication in the Feb publication). If an individual wishes to submit their article earlier I archive it for delivery to 5senses at the appropriate time.
7. **Submission procedure:** Articles and photos (if furnished), should be sent to Russ Chappell, sheepdog@cableone.net who will review the article, select a photo if required, and forward the articles to Nick DeMarino, editor of the 5senses publication.

Thank you for supporting this program, communication is the secret to success in most activities and these article contribute greatly to keeping PAS alive, well and respected in the community.
